Standard **1 year**
warranty

Standard 1 Year Warranty

With Repair Options, you will be granted a 12 month Cat warranty, at a discounted price. Additionally, if any of the remanufactured or used parts (new or Reman) in your overhaul are found to be defective and cause damage to your engine, not only will the new or Reman part be replaced, but all resulting damage to other parts will also be covered.

Extend the lifetime of your engine!

Depending on load, fuel consumption and running hours on your propulsion, auxiliary or genset engine - wear will occur.

In order to offer you the best solution suited for your engine, Pon Power offers repair options in five levels. From lifetime extension to “back to new” condition.

Have a look at what we are offering - or ask us for advice!

REPAIR OPTION LEVELS

Which level is aimed for your situation?

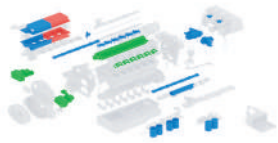

LEVEL 1

On a tight budget? Ensure your engine's critical systems are operating optimally.

Protect critical systems

Activities	Component
Overhaul or replace with CRA parts:	Turbocharger & cylinder head
Replace with Cat Reman	-
Test, replace as necessary*	Aftercooler (fresh water), oil cooler *Injectors control w/performance test*
Clean and test*	Aftercooler(fresh water) & oil cooler
Replace	Thermostats, filters (oil, fuel and air), gaskets, O-rings and seals
Engine test	Engine performance test

* Parts are assessed according to Caterpillar's Reuse&Salvage guidelines to ensure they meet engineering specifications and are covered by warranty. If the parts meet specifications, they are reused and covered by warranty. If they don't, a new or Reman replacement is provided at additional cost.

LEVEL 2

Balance between cost and turnaround time by using Cat new, Reman, and CRA overhauled parts.

Top-end overhaul w/CRA

Activities	Component
Overhaul or Replace with CRA parts	Turbocharger & cylinder head
Replace with Cat Reman	Fuel injectors
Test, replace as necessary*	Aftercooler(fresh water) & oil cooler
Clean and test*	Aftercooler(fresh water) & oil cooler
Replace	Thermostats, filters (oil, fuel and air), gaskets, O-rings and seals *Sea water aftercooler and sea water pump if equipped

LEVEL 3

Back-to-new condition for your top-end and fast turnaround using Cat genuine new and Reman parts.

Top-end overhaul w/REMAN

Activities	Component
Overhaul or Replace with CRA parts	-
Replace with Cat Reman	Fuel injectors, cylinder head, turbo cartridge
Test, replace as necessary*	Aftercooler(fresh water) & oil cooler
Clean and test*	Aftercooler(fresh water) & oil cooler
Replace	Thermostats, filters (oil, fuel and air), gaskets, O-rings and seals *Sea water aftercooler and sea water pump if equipped

* Parts are assessed according to Caterpillar's Reuse&Salvage guidelines to ensure they meet engineering specifications and are covered by warranty. If the parts meet specifications, they are reused and covered by warranty. If they don't, a new or Reman replacement is provided at additional cost.
